SecureCRT Secure Terminal Client

SecureCRT client for Windows, macOS, and Linux provides rock-solid terminal emulation for computing professionals, raising productivity with a host of ways to save time and streamline repetitive tasks. SecureCRT provides secure remote access, file transfer, and data tunneling for everyone in your organization.

☑ Multiple Protocols

Access your full array of network devices from one client with SSH, RDP, Telnet, Telnet/TLS, serial, and other protocols.

☑ Multi-Platform

Securely access business applications on UNIX, Linux, or VMS from machines running Windows, macOS, and Linux.

☑ Automation

Save time and reduce human error by automating repetitive tasks with VBScript, JScript, PerlScript, and Python scripts.

☑ Logging

SecureCRT can start logging automatically upon connecting to the remote site. Log rotation, parameter substitutions, and custom log data options provide additional log flexibility.

☑ Productivity

Leverage the high-productivity GUI with time-saving features. Customer favorites include tabbed connections, keyword highlighting, paste preview, mapped keys, and a button bar for frequently-used commands.

☑ Extensive Emulation

Rich emulation support includes VT100/102/220, TN3270, ANSI, SCO ANSI, TVI910/925, Wyse 50/60, Xterm, and Linux console.

☑ File Transfer

Transfer files between network devices with SFTP, Xmodem, Ymodem, Zmodem, or Kermit.

☑ Best Security Practices

- Support for Smart Cards (PIV/CAC)
- Encrypted profiles
- Accidental paste protection
- Administrative options include:
  - FIPS 140-2 mode
  - Disallow saving of passwords and usernames
  - Host key algorithms allowed

☑ Commercially Supported

With more than 1.5 million registered users in over 50 countries worldwide, VanDyke Software has delivered rock-solid software to IT professionals since 1995.

☑ In-House Technical Support

VanDyke Software provides comprehensive in-house technical support, including pre-sales evaluation, consultation for installation and configuration issues, and support of maintenance and upgrade software.

"SecureCRT is a valuable tool for my team's efficiency in administering the UNIX environment. It is one of the best tools paid or free. I can't imagine using anything else."

Rick Snyder, Systems Administrator Nevada Power Company

"We use both Windows and macOS and the ability to run the software on both platforms has been great. SecureCRT has made my work so much easier and manageable. Your product is so good I've never had to open a technical support issue."

Benjamin Warriner, IT Manager, Region VII Education Service Center

"I think SecureCRT is a great application and it is considered to be the de facto client SSH utility for most network and sys admins in the IT industry."

Artem Tokarev, Network Engineer

Equip your IT team with a rock-solid industry standard

Organizations from Global 1000 corporations and ISPs to stock exchanges, universities, and research labs depend on VanDyke Software solutions.
